

## HOW CAN YOU HELP?

We know that not everyone can walk with Sue, so we hope people will show their support in a variety of ways

- 1 . Spread the word!!** The best thing people can do is talk to people about the walk and spread the word!
- 2 . \*\*Donate/Funding/Sponsorship..** This walk is grassroots funded so any contributions go a long way! We can use all the help we can get.

**BSB:** 803 226 **A/C:** 3558

Also, contributions of food and other equipment would be greatly appreciated!

- 3 . Share your music or art..** We know people can't drop everything in their lives and walk the entire journey, so we're encouraging people to show their support through their art and music. Check out the website!

- 4 . Check the map.** Are you on the route? Can you help the walkers with accommodation, music or workshops.

- 5 . Come along!** Especially for the final steps.

# SACRED LIFE WALK 2007

On the 07/07/07, Yungarri Knuppanunka, Aunty Sue Charles Rankin, Aboriginal Mother and Grandmother from the Kulin Nation, (Melbourne, Australia) will set off on a journey of 1,500 kilometres.

Sue is walking all the way from Adelaide, South Australia (Karna Country) to Uluru in Australia's Northern Territory.

Sue encourages people to come together in solidarity and to support her walk for a better future.

## WHY ARE PEOPLE WALKING?

Sue is walking to bring world-wide focus on Mother Earth's changes and the continued deplorable treatment and living conditions of Aboriginal Peoples in the homelands of her Ancestors.

***"Our people say if country is sick, people are sick..."***

***"We have forgotten that we are all connected, we no longer listen to our Mother Earth and each other in a healthy manner."***

In setting out upon this peaceful journey, Sue's intention is to promote awareness of, and better our relationship with our Mother Earth and each other.

***"We, each of us, cannot continue on the course we are currently on and just hope everything will be ok."***

It's time to give the Aboriginal People the respect they've long been denied. We can learn so much from the Aboriginal people by truly appreciating the wisdom of their laws and culture.

Let us acknowledge the truth of the past and create a vision of the future that is built on sustainability, social justice, peace and harmony.

The beauty of nature is priceless. We must act now.

**It's time. Act now. Come together!**
